630-999-0992 | Aurora, IL | edwingarcia0992@gmail.com

EDUCATION

Aurora University | Bachelor of Science in Computer Science May 2024

Relevant Coursework: Object-Oriented Programming, Web Application Development, Computer Systems, Computer Security, Database Design & Implement, Data Structures and Algorithms, Software Test and Quality Assurance, Introduction to UX/UI

WORK EXPERIENCE

ECHO Internship | CME Group | Aurora, IL July 2023 - September 2024

- Conduct audits for the data center including server cabinets across four data halls, managing over 800 server cabinets to ensure optimal utilization and organization.
- Granted access and escorted visiting engineers to their requested server cabinets while ensuring exceptional customer service.
- Assisted infrastructure engineers, while they troubleshoot and perform server maintenance such as installations, part replacements, and cable reseating.

Garden Associate | The Home Depot | Oswego, IL March 2020 - September 2020

- Provided exceptional customer service by assisting customers in selecting the correct tools and products for their gardening projects.
- Resolved customer issues and concerns to ensure a positive customer shopping experience.
- Operated heavy machinery including the forklift, reach truck, and pallet jack.

PROJECTS

Portfolio Website (<https://egarcia0992.github.io>) - Developed a fast and responsive portfolio website utilizing HTML, CSS, and Bootstrap to showcase my web development skills and other projects.

Inventory Manager Website - Built a full stack website using React.js in the frontend and Java Spring Boot for backend APIs. Created a SQL Server database to manage storage. The website allows for creating, updating, and deleting items and customers. Deployed the frontend, backend, and database to Azure for cloud hosting to ensure scalable and reliable access.

React Native Questionnaire/Journal App - Worked with a team of three to develop a React Native questionnaire app and journaling app. Integrated JIRA for workflow management and used Firestore/Firebase for authentication and data handling.

iOS Weather App - Developed a mobile application using Swift and SwiftUI to provide relevant weather information to users. The OpenWeatherMap API was integrated to retrieve weather data and then process JSON responses to display weather, forecasts, and other relevant information.

SKILLS

Programming Languages: JavaScript, Python, Java, C++, C#, Swift, Node.js, HTML, CSS

Frameworks & Libraries: Spring Boot, React Native, React.js, Bootstrap, Express.js

Database Management: MySQL, SQL Server

Other Skills: Linux, Windows, MacOS, VirtualBox, VMware, Azure, Firebase
