

Edwin Garcia

630-999-0992 | Aurora, IL | edwingarcia0992@gmail.com | <https://egarcia0992.github.io/>

EDUCATION

Aurora University | Bachelor of Science in Computer Science

May 2024

Relevant Coursework: Object-Oriented Programming, Web Application Development, Computer Systems, Computer Security, Database Design & Implement, Data Structures and Algorithms, Software Test and Quality Assurance, Introduction to UX/UI

WORK EXPERIENCE

ECHO Internship | CME Group | Aurora, IL

July 2023 - September 2024

- Conduct audits for the data center including server cabinets across four data halls, managing over 800 server cabinets to ensure optimal utilization and organization, utilizing Excel spreadsheets for tracking and reporting.
- Granted access and escorted visiting engineers to their requested server cabinets while ensuring exceptional customer service.
- Assisted infrastructure engineers, while they troubleshoot and perform server maintenance such as installations, part replacements, and cable reseating.

Garden Associate | The Home Depot | Oswego, IL

March 2020 - September 2020

- Provided exceptional customer service by assisting customers in selecting the correct tools and products for their gardening projects.
- Resolved customer issues and concerns to ensure a positive customer shopping experience.
- Operated heavy machinery including the forklift, reach truck, and pallet jack.

PROJECTS

Inventory Manager Website (SQL Server, Java, Spring Boot, React.js, Azure)

- Constructed a SQL Server database to handle storage of user and inventory information
- Built a backend solution with Java Spring Boot with CRUD functionality
- Seamlessly allowed frontend, backend, and database connectivity through Azure deployment

React Native Questionnaire/Journal App (React Native, Firebase, Firestore, Expo, Jira)

- Collaborated in a 3 person team to build a cross-platform mobile journaling app
- Integrated Firebase/Firestore to handle user authentication and data storage
- Managed the project workflow with Jira and Agile methodologies

iOS Weather App (Swift, API)

- Developed a responsive weather app using SwiftUI to provide relevant location based forecast data
- Integrated the OpenWeatherMap API to retrieve and then parse the JSON data to display weather conditions

Mask Detection AI (Python, PyTorch, Pandas)

- Developed a Convolutional Neural Network using PyTorch to classify images with or without a mask
- Created a full Machine Learning pipeline by building a dataframe, preprocessing images, and training the model
- Implemented model evaluation by creating visualizations of the accuracy and loss metrics across epochs

SKILLS

Programming Languages: JavaScript, Python, Java, C++, C#, Swift, Node.js, HTML, CSS

Frameworks & Libraries: Spring Boot, React Native, React.js, Bootstrap, Express.js, PyTorch, Pandas, NumPy

Database Management: MySQL, SQL Server

Other Skills: Linux, Windows, MacOS, VirtualBox, VMware, Azure, Firebase
